Three to six inches of rain fell in a short amount of time during the early morning hours of July 4th in Moline, IL resulting in flash flooding. About 20 to 30 people were rescued from stalled vehicles around 4:30 AM. A police car was also caught in flood waters at South Park Mall. In addition, street flooding forced the closure of the access road to the Cloverleaf Mobile Home Park off of 38th Street.

Three to six inches of rain fell in a short amount of time during the early morning hours of July 4th in Carbon Cliff, IL resulting in flash flooding. One to two feet of water covered a portion of N 1st Avenue just northeast of Carbon Cliff around 5:30 AM.

A line of thunderstorms dropped southward into east central lowa and northwest Illinois during the late evening of July 3rd and early morning hours of July 4th. The storms produced torrential rains with rainfall rates over 1 inch per hour. The heaviest rains of 2 to 6 inches fell along the highway 61 corridor from the Quad Cities to Dubuque. Many locations experienced flash flooding, with roads flooded with water several feet deep. The flooding also prompted the closure of some roads. Several cars stalled out in flooded streets and some water rescues were performed. Small streams and creeks rose quickly, overflowing their banks. Many residences also experienced basement flooding.

A gravel and dirt road washed onto route 78 near Blue Mountain Road.

A cold front stalled across eastern lowa and northwest Illinois during the morning hours of July 9th. The front then acted as the focal point for shower and thunderstorm development through much of the day. Torrential rains, hail up to the size of a quarter, and damaging winds were common across areas mainly over southeast and east central lowa and northwest and west central Illinois.

Two large trees, 5 feet in diameter, were blown down. Additional tree damage was also noted in the area.

A strong cold front pushed into southeast lowa and northwest and west central Illinois during the afternoon of July 10th sparking a line of showers and thunderstorms. Two of the thunderstorms surpassed severe thresholds creating wind gusts between 65 and 75 mph. One gust was recorded at the Quad City Airport in Moline, IL and the other gust downed some trees in Augusta, IL.

JO DAVIESS COUNTY --- 0.9 SW WARREN [42.49, -89.99]

07/18/07 18:03 CST 25K Thunderstorm Wind (EG 61 kt)

Heavy rain-producing showers:	and thunderstorms moved across of	eastern lowa ar	nd northwest Illi	nois during the evening and overnight

Heavy rain-producing showers and thunderstorms moved across eastern lowa and northwest Illinois during the evening and overnight hours of July 18th. An isolated storm downed some trees in Warren, IL around 7 PM. Later, a bowing segment of thunderstorms pushed into Carroll County resulting in more wide-spread wind damage. Rainfall totals ranged between three quarters of an inch to just under 3 inches, but due to saturated soils some flooding problems developed.

Three to six inches of rain fell in a short amount of time during the early morning hours of July 4th in Davenport, IA resulting in flash flooding. Around 4:30 am, Duck Creek flowed out of its banks at 29th Street and Eastern, Division Street and 32nd Street, and 35th Street and Harrison Street. Street flooding also occurred at the intersection of Locust Street and Scott Street prompting the closure of the intersection. By 6:30 AM, the Duck Creek at Kimberly Rd creek gage was reading just under 13.3 feet, which is about 1.3 feet over the flood stage at that location. Some homes along Duck Creek also reported flooded basements. Later that morning, a man and his son were rescued from Duck Creek after their canoe overturned in the high, rushing waters.

Water flowed over 140th Street near H	loosiar Crook about one half mile	west of Elv Dd		

A cluster of storms developed during the mid-afternoon hours of July 16th near Cedar Rapids. It moved southward producing torrentia rains, large hail, and damaging winds. Just before 6 PM, a tornado touched down on the east side of Washington, IA. Additional severe storms developed northwest of the Cedar Rapids area during the early evening hours, which were quickly followed by a thunderstorm complex which produced damaging winds and large hail. The severe weather activity died down between 11 PM and 4 AM. Between 4 and 8 AM, yet another thunderstorm complex dove southeast from northeast lowa to central Illinois producing damaging winds and flooding rains. Rainfall totals throughout the 18 hour period ranged between 1 and 4 inches.

Lightning struck a home on lwv Rd SW south of Oxford, IA around 2 AM causing a fire. The homeowner was able to extinguish most of the fire. Minor fire and smoke damage was reported. Time estimated.

Heavy rain-producing showers and thunderstorms moved across eastern lowa and northwest Illinois during the evening and overnight hours of July 18th. A bowing segment of thunderstorms pushed east southeast across areas from just south of Waterloo, IA to the Quad Cities producing widespread wind damage, torrential rainfall, and an isolated tornado near Paris, IA. Rainfall totals ranged between three quarters of an inch to just under 3 inches, but due to saturated soils some flooding problems developed.
